

# HEIRS | WORKSHOP

September 17, 2026 • LUX:C214

HOUSEHOLD ECONOMY • INHERITANCE • RESEARCH • STUDIES

The research node HEIRS – *Household Economy and Inheritance Research Studies* – invites all interested to take part in the first HEIRS Lund workshop. Based on presentations of ongoing or planned research at Lund University, the workshop aims to create a stimulating environment for discussions of research related to household economy and/or inheritance in a broad sense, facilitating the exchange of perspectives and ideas.

The workshop is open to everyone. You are welcome to attend the presentations and take part in the discussions, either for the whole day or for individual sessions. If you are interested in attending, please notify us at [falk.hist@proton.me](mailto:falk.hist@proton.me) by September 10.
